

DAKOTA HUYGHE

32320 Linderman Ave, Warren MI. 48093 · (586) 522-5548

dakota.s.huyghe@gmail.com

I am looking for a front-end developer position. I am very attentive to detail who enjoys the challenge of solving difficult problems. I want to help your company by making a concise, easy to navigate website or web application that provides the functionality you require while also making it an enjoyable user experience.

EXPERIENCE

JULY 2021 – PRESENT

LOSS DRAFTS ASSOCIATE, PROCTOR FINANCIAL

- Oversee the check endorsement process for mortgagees of Freedom Mortgage.
- Ensure accuracy on all loans based on information gathered from the borrower's insurance provider.
- Maintain open communication between the borrower, their insurance provider, and Freedom Mortgage regarding the borrower's homeowner's claim.

JULY 2020 – JULY 2021

TECHNICAL REPRESENTATIVE, GENERAL MOTORS

- Execute advanced troubleshooting techniques to triage technical issues customers have with their OnStar units in their vehicles.
- Maintain a personal workload while ensuring SLAs are being met.
- Responsible for troubleshooting and correcting the following: WiFi, Hands-Free Calling (in-vehicle cell phone), Turn-by-turn Navigation, Mobile App Connectivity, and more...

SEPTEMBER 2019 – JULY 2020

MORTGAGE SUPPORT, FLAGSTAR BANK

- Assist the company through the acquisition of 250,000 new loans by answering questions and concerns borrowers have regarding their mortgage.
- Additional responsibilities I took on include becoming specialized in Escrow, Property Taxes, and HELOC-related questions.
- I assisted my team leaders with new employee setup when we had downtime including setting up new computer workstations and accounts.

EDUCATION

JULY 2021

UDEMY CERTIFICATION, THE COMPLETE 2021 WEB DEVELOPMENT BOOTCAMP

- Full Stack Web Developer course on Udemy. Contains over 50 hours of coursework included in the App Brewery's in-person Code Bootcamp.

- The Course includes HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Frameworks like Bootstrap/jQuery/Mongoose/React.js/etc., Version Control using GIT, and API Development and Implementation.

JUNE 2015

HIGH SCHOOL DIPLOMA, COUSINO HIGH SCHOOL

- Took electives based on art and design, web development, and sciences

SKILLS

- HTML, CSS, and JavaScript
- Node.js and Express.js
- BASH Shell and Linux
- MongoDB and Mongoose
- Frameworks like Bootstrap and jQuery
- Version Control with GIT

ACTIVITIES

I enjoy making game assets such as 2D tilesets and sprites for games using Clip Studio Paint as well as sound effects and background music in FL Studio and Cuckos Reaper digital audio workstations. I occasionally code scripts for certain game mechanics in Python. I also enjoy creating mods for games by executing in-game console commands in sequence, either upon load or per game tick based on the need of the function being ran.
